

Thank you so much for the work you're doing on the ground to help protect your community. It is truly an honor to contribute to that work in my own small way.

If you have any feedback, please reach out to your original contact or email whistlerequests@proton.me and they will make sure to pass the information along. I print these whistles in large batches and do a quick visual scan of each whistle. I follow up with spot checks based on how well the printer and filament appears to have behaved, but sometimes imperfections sneak in. Please reach out if you got a bad batch or there were any problems with shipping so I can improve my process. Additionally, I'd love to hear if a given color was particularly popular so I can make sure to print more in that filament!

Need more whistles? Want to donate? Have a 3D printer and want to help make more?

Scan the QR code or visit this [Linktree](#) for more info!
